OBJECTIVE

To secure a Software Engineering Internship where I can apply and enhance my development skills. I aim to contribute to real-world projects, learn from industry professionals, and grow as a developer by working on both frontend and backend technologies.

EXPERIENCE

Android Development Intern | Digipodium, Lucknow | Jan 2023 – May 2023

- Built key app features in Kotlin, reducing load time by 25% through code optimization.
- Participated in UI/UX design, implementation, and testing phases.
- Delivered a client-ready, technically sound Android application within deadline.

Java Development Intern | PriyaQubit Pvt Ltd, Hyderabad | Aug 2022 – Nov 2022

- Developed and optimized Java modules, improving code efficiency by 20%.
 - Collaborated with the R&D team to implement backend features and debug issues.
 - Strengthened skills in object-oriented programming and real-world software workflows.
-

SKILLS

- Programming Languages & Databases: Java, Python, Oracle, MongoDB, MySQL
 - Frameworks & Stacks: Spring Boot, MERN Stack
 - Tools & Platforms: Git, Postman, DialogFlow
 - Web Technologies: HTML, CSS, JavaScript, React, Node.js, Express.js, JSP, Servlet
 - AI & Automation: NLP, rule-based filtering, text preprocessing, tokenization, lemmatization, document classification
-

PROJECTS

[Resume Screening Tool](#) – AI-based HR Application (Python, Streamlit, spaCy, NLP) [\[Live\]](#)

- Applied NLP and rule-based AI techniques for automated resume screening.
- Built an **Streamlit app** to extract text from files, compute **skill match scores**, and display results.
- Enabled **batch resume processing** and result sorting demonstrating expertise in **AI-powered HR automation**.

[RTO Connect](#) – Regional Transport Office Automation Portal (MERN Stack)

- Implemented secure user authentication using JWT with role-based access.
- Integrated Stripe for payment processing.
- Developed a chatbot using DialogFlow for instant user assistance.

[Swasth Saarthi](#) – Rural Healthcare Awareness WebApp (JSP, Servlet, MVC, Oracle)

- Developed an online platform to enhance rural healthcare awareness.
 - Implemented modules for residents, healthcare workers, and administrators.
 - Enabled appointment booking and health event tracking.
-

EDUCATION

Master of Computer Applications | **Vellore Institute of Technology, Vellore** | July 2024 – May 2026

Bachelor of Computer Applications | **University of Lucknow, Lucknow** | July 2020 – May 2023

Certifications & Achievements

- Coursera (Ongoing)**: Full Stack Development | Amazon
- Coursera (Ongoing)**: Python Data Analytics | META
- Simplilearn**: Prompt Engineering | [Credential Code: 8369821](#)
- LeetCode** 500+ Data Structures & Algorithm Problems Solved, 29 Badges Earned
