OBJECTIVE

To secure a Software Engineering Internship where I can apply and enhance my full-stack development skills. I aim to contribute to real-world projects, learn from industry professionals, and grow as a developer by working on both frontend and backend technologies.

EDUCATION

Vellore Institute of Technology   **Vellore, India**
Master of Computer Applications   July 2024 – May 2026
University of Lucknow   **Lucknow, India**
Bachelor of Computer Applications   July 2020 – May 2023

SKILLS

- Programming Languages: Java, Python, C++
- Frameworks & Stacks: Spring Boot, MERN Stack
- Databases: Oracle, MongoDB
- Tools & Platforms: Git, Postman

PROJECTS

[RTO Connect](#) **– Regional Transport Office Automation Portal (MERN Stack)**

- Implemented secure user authentication using JWT with role-based access.
- Integrated Stripe for payment processing.
- Developed a chatbot using DialogFlow for instant user assistance.

[Swasth Saarthi](#) **– Rural Healthcare Awareness WebApp (JSP, Servlet, MVC, Oracle)**

- Developed an online platform to enhance rural healthcare awareness.
- Implemented modules for residents, healthcare workers, and administrators.
- Enabled appointment booking and health event tracking.

[User Management System](#) **(Spring Boot, RESTful API, MySQL, Fetch API)**

- Developed a RESTful API to manage user data using Spring Boot and MySQL.
- Conducted comprehensive testing to ensure API reliability and performance.
- RESTful services with a dynamic frontend, highlighting full-stack development capabilities.

Certifications & Achievements

- **Coursera (Ongoing)**: Full Stack Development | Amazon
- **Coursera (Ongoing)**: Python Data Analytics | META
- **LeetCode** 500+ Data Structures & Algorithm Problems Solved, 29 Badges Earned
